## Part B: Asylum Interview

### Compulsory statements - to be read out at every interview

**The asylum interview is your opportunity to tell us your reasons for claiming asylum. It is very important you do not withhold any information you believe to be relevant. I will help you by asking you questions so that we have the information we need.**

I would like you to tell me why you left **Cardiff** and your reasons for not wanting to return. You do not need to tell me about the general situation in your country: it is your personal experiences I want to hear about.

I understand it may be hard to talk about some experiences but it is important that you let me know all the reasons why you need protection and we can take a break at any time.

If there is something that I do not understand or need to clarify, I will ask you to explain in more detail. If at any point you want to change or amend what you have told me, please let me know.

- If I do not understand your responses or need to clarify them, I will give you a chance to explain.
- Some parts of your claim may be difficult for you to talk about but I will be asking questions to help you explain what happened to you, so it is important that you answer with as much detail as you can.
- The information you provide about your reasons for seeking asylum will never be disclosed to your country's government or other authorities in your country.
- If you want a break during the interview, please let me know. I may also suggest a break if I think we need to take one.
